About us

VIPA SK: The mission of OZ VIPA SK is promoting the improvement of the quality of life in rural areas to support rural initiatives in managing rural development.

OZ: Lišov Múzeum: The museum consists of three parts: a house from 1916 Lišovská Room - a smaller ethnographic museum, a replica of a Celtic dwelling and a gallery of masks with 400 exhibits from around the world - the only one in Slovakia. The museum has volunteer activities, courses in traditional skills and crafts, education for foreign students, and the sale of local products in a small shop. The distance in space and time was thus transformed into proximity, because the extinction comes alive in the present

What we expect from trainee

Discuss together on the possibilities of developing different rural areas. How to engage young people in various rural activities.
