

A foundation to enhance the well-being of trees and landscapes, FR

Catherine MARQUOT, Toi l'arbre, FR

- **Scale of activity:** national
- **Actor:** Private
- **State of the activity:** started in the end of 2014, ongoing
- **Keywords.** protection of old remarkable trees, creation of new plantations, agro-forestry, sustainable forestry

Summary

Support initiatives of general interest about protecting existing trees or creating new plantations (protecting remarkable very old trees, developing agro-forestry and sustainable forestry).

Outlook

Challenges: discover initiatives which will not be supported by existing financial channels and are worth developing.

Next steps: go on supporting initiatives till the financial provision of the Foundation is spent (probably 2017 or 2018), since it is not renewable (it was created after an inheritance).

Description of activities

Most initiatives supported are initiated by associations. They are small-scale and very concrete, practical, rooted in the local reality. The aim is to communicate about them, hoping they will spread throughout France and Europe.
