

Becoming a member of Forum Synergies

Thank you for your interest in becoming a member of “Forum Synergies”!

Your interest is to promote a sustainable future and to enable sustainable livelihoods? You are already practising what you are dreaming of – in your region, in a project, in a community?

You would like to learn more about the “how” and would like to come into contact with other people to share experiences and know-how?

You think there is something special about your region, your project what is worth promoting, developing and sharing?

You are at the beginning of a new period, maybe a shift to a sustainable way of life and want to learn about the success and risks?

Forum Synergies is a European Network of “experiences in sustainable development” and you are invited to become a member of this rich and encouraging partnership.

Please find attached the statutes of our organisation and have a look especially at the goals of our common work.

In the past we have especially invited people and organizations to join FS when have already gathered some practical experience in sustainable rural development. Therefore, ideally your initiative, organisation should cover at least 2-3 aspects of practical sustainability with a territorial concern, like there are: the sound management of natural resources, rural culture and livelihood, social cohesion, specific conflicts between people and decision makers on issues of sustainable practices. Your initiative should ideally have gathered experiences for a couple of years.

Above all, you should be interested in exchange of experiences not only on a local or national level, but on a European or international level and have time and language knowledge to communicate on this international level

Of course we also welcome individual members who share the aims of our association and subscribe to our statutes.

Our annual membership fee for personal members is 50.-€, for associations it is 100.-€ per year. A 50% reduction is granted to members in Eastern European Countries.

The official application form can be downloaded from our website www.forum-synergies.eu (About Forum Synergies: Membership). You can submit your application (signed scan) directly to info@forum-synergies.eu. Once you have filled in the application form, your application will be received by the board and is generally approved at the next general assembly.

In case you have any further questions, please feel free to contact Simone Matouch at info@forum-synergies.eu!
